

Barrier Film Processing and Troubleshooting

Full Day Technical Seminar at NPE 2018

**May 9, 2018
NPE 2018 - OCCC, West Building
Room W221E**

Organized and presented by Macro Engineering and Technology Inc.

Overview

Macro Engineering is offering a comprehensive full-day course in barrier film processing and troubleshooting that covers both shrink and non-shrink film applications. Don't miss out on this opportunity to learn what is current in the industry.

Areas Covered

- Barrier film applications
- Key polymers in barrier films
- Material properties with a focus on rheology
- Rheological effects on coextrusion
- Polymer processing principles
- Principles of die and screw designs
- Troubleshooting film manufacturing

Who will benefit

- Process Engineers
- Production Technicians
- Material Engineers
- Extrusion Managers
- Anyone involved in film extrusion

Why Should You Attend

- Obtain up-to-date view on the latest technologies in barrier film production
- Gain a better understanding of equipment design and the material properties
- Gain knowledge of common issues in film processing and how to solve them
- Learn how to improve productivity by reducing scrap

REGISTRATION FORM

Barrier Film Processing and Troubleshooting

May 9, 2018

NPE 2018 - OCCC, West Building Room W221E

Presented by Macro Engineering and Technology Inc.

Delegate Details

First Name: _____

Last Name: _____

Company: _____

Tel: _____

Email: _____

Payment Details

\$300 USD (includes full day course, lunch and breaks)

- 20% off for any additional person coming from the same company

Method of payment

By Check: In US Dollars (\$), made payable to "Macro Engineering and Technology Inc."

Visa/MasterCard: In US Dollars (\$)

Card Number: _____

Name of cardholder: _____

Expiration date: _____

Amount to be Authorized: _____

Date: _____

Cardholder Signature: _____

Fax to: 1(905)507-9000 | email to Sales@macroeng.com
or Mail to: Macro Engineering and Technology Inc.
